Returned to applicant for correction _____

Corrected application filed _____

Map filed NOV 6 1963

The applicant Nevada Fish and Game Commission
of Box 678, Reno, County of Washoe,

State of Nevada, hereby make s application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Eagle Valley Creek and Tributaries
Name of stream, lake or other source.

2. The amount of water applied for is _____ second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet 825 acre-feet

3. The water to be used for Wildlife propagation and recreation
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated) _____

(b) Stockwater (state number and kinds of animals to be watered) _____

(c) Other use (describe fully under "No. 11. Remarks") _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: at a point in the NE 1/4 NW 1/4 of
Section 24, T. 2N., R. 69E., lying S. 70° 46' 20" W. 2962 ft. of the NE corner of said
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
Section 24,
it should be stated.

6. Place of use Portions of NE 1/4 NW 1/4, N 1/2 NE 1/4 Section 24; S 1/2 SE 1/4 Section 13 all in
Describe by legal subdivision, if on unsurveyed land it should be so stated.
T. 2N., R. 69E.; SW 1/4 SW 1/4 Section 18; NW 1/4 NW 1/4 Section 19, T. 2N., R. 70E.

7. Use will begin about January 1 and end about December 31, of each year.
Month Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) An earth fill dam 50 ft. high plus
freeboard and foundation with an emergency spillway blasted from solid rock.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
Riprapped on upstream face.

9. Estimated cost of works \$150,000.00

10. Estimated time required to construct works 2 years

Water will be stored during periods when stream flows exceed present down-

11. Remarks stream water rights. During the irrigation season, water will be released and measured from the reservoir in amounts equal to the reservoir's inflow to satisfy all present downstream water rights except that during flash floods or other high flows water will be released up to the capacity of the present diversion works of the Eagle Valley Irrigation Company, Inc., and the balance will be stored for the applicant's use unless the reservoir is at spillway level in which case the entire flow shall be by-passed. All existing water rights, including winter stock watering rights, will be honored by the applicant. Except for evaporation losses, the use will be non-consumptive. The reservoir will absorb its own evaporation losses. Inflow and outflow weirs will be installed to measure the normal flow, up to 12.0 second feet, of the Eagle Valley Creek and they shall be part of the project.

The principal officers of the Eagle Valley Irrigation Co., Inc. have notified the Applicant Nevada Fish and Game Commission applicant that the company had voted as being in favor of the construction of the recreation dam.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to store 825 acre-feet of water per annum for Wildlife propagation and recreation purposes is issued subject to all existing rights on the source. The proof of beneficial use, when filed, must show the maximum amount of water stored and released during any one year. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 825 acre-feet storage ~~cubic feet per second~~ per annum

Actual construction work shall begin on or before June 22, 1964

Proof of commencement of work shall be filed before July 22, 1964

Work must be prosecuted with reasonable diligence and be completed on or before June 22, 1965

Proof of completion of work shall be filed before July 22, 1965

Application of water to beneficial use shall be made on or before June 22, 1967

Proof of the application of water to beneficial use shall be filed on or before July 22, 1967

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed July 15, 1965

Completion of work filed July 15, 1965

Proof of beneficial use filed July 14, 1967
